FOR
WATER TREATMENT

FOR
ROLLOVERS AND TUNNELS

FOR
FACILITY MAINTENANCE

FOR
INTERIOR CLEANING

Innovation and experience give way to unique washing products that make the most of car wash equipment and offer users an extraordinary experience. Pre-washes, shampoos, foams and waxes ensure an impeccable finish and spectacular results for all vehicle types.

WASH PHASES

Effectiveness assured

ISTOBAL esens ® products are present in all wash phases with specific formulations for powerful pre-washes and shampoos, amazing foams, high-gloss protective waxes and drying agents for a perfect finish.

01

PRE-WASH

The latest technologies have been applied to our pre-washes to remove stubborn dirt such as grease or organic matter on the bodywork and the rims.

02

FOAMS

Innovation is also present in our foams to dissolve the dirt and to surprise users with colours and fragrances for a sensory experience.

03

SHAMPOO

Our know-how has helped us develop shampoos that guarantee a thorough vehicle clean for demanding clients, protecting brushes at the same time.

04

SHINE AND PROTECTION

State-of-the-art waxes provide gloss on the vehicle surface and protect the body against UV radiation. Vibrant, long-lasting colours are enhanced with each wash.

05

DRYING AGENTS

Our water-repelling waxes facilitate the rinse, ensure a high-quality dry without drops and even repel rainwater. A perfect finish and improved safety on the road.

PRODUCT RANGES

Quality and variety for all facility types

Each business and each customer has specific needs. ISTOBAL esens® offers a variety of products for all vehicle types and for all car wash machines.

Select covers all car wash areas and adapts to both facilities and machines, ensuring effectiveness for an impeccable result.

Premium brings added value with special products for demanding clients, guaranteeing a thorough wash of the dirtiest, most difficult vehicle areas.

XTRACT SUPERCONCENTRATES

Total comfort

The pioneering line of Xtract superconcentrates offers convenient and innovative packs that take 90% less room compared to traditional formats, thus reducing storage and transport costs. Additionally, Xtract reduces plastic waste by more than 90%, minimizing environmental impacts.

This line includes two formats: Doy Pack (small bags) and Flask (thermo-sealed bottles). Easy to use and easy to store, both formats make the handling of consumables comfortable, quick, clean and safe.

Xtract Mixing System

This innovative device is the perfect solution to automatically dilute and mix Doy Pack chemicals. Xtract Mixing System supplies the chemical to all pieces of equipment in the installation, avoiding manual refilling. Greater comfort, higher speeds and more safety to let you concentrate on what really matters: your car wash business.

Xtract Dosing System

Maximum dosing accuracy is now possible on your rollover thanks to Xtract Dosing System. Easy use, improved logistics and greater control -even remotely- are some of the advantages of this device, used with our Flask format superconcentrates. The most effective and intuitive way to dose the right amounts and maximize performance.

ROLLOVERS AND TUNNELS

Maximum throughput in automatic wash systems

A quality chemical is essential to making the most of a rollover or a tunnel, profitability-wise. As car wash experts with over 65 years' experience, nobody knows better than ISTOBAL how to develop the chemical products that work best on each wash phase.

FEATURED PRODUCTS:

ACTIVE MOUSSE SHINE

This active foam dissolves and removes dirt, achieving an incredibly shiny finish. It also helps the wax in the drying process and creates a sensational car wash experience. As a 3-in-1 product, it removes dirt, brings shine and protection, and improves the drying. All of it, with a bright pink colour and a pleasant fragrance.

JET SHAMPOO SPA PLUS

With a fresh spa scent, this highly concentrated and highly foaming shampoo is able to break through stubborn dirt, dissolving and eliminating it for a thorough clean.

COMMERCIAL VEHICLES

Powerful chemicals to fight dirt

Commercial vehicle fleets require powerful wash solutions over a short period of time. ISTOBAL esens® has powerful chemicals that fight dirt in vehicles under adverse conditions.

FEATURED PRODUCTS:

PRE-WASH ALKALINE PLUS

High descaling power combined with strong detergent properties make this product perfect to remove stubborn dirt like traffic film. Ideal for a pre-wash prior to the brush wash.

PRE-WASH ALKALINE

Alkaline product with high degreasing and foaming properties to easily break dirt down. Especially designed for the pre-wash of commercial vehicles, manually or automatically.

PROFESSIONAL CLEANING

A thorough and professional wash

For a clean car, outside but also inside, ISTOBAL esens® offers a wide product range exclusively designed for the exterior and interior manual cleaning of the vehicle. Specific chemical products for tires, upholstery, dashboard and mats; air fresheners, windscreen fluid... They all contribute to a thorough result.

FEATURED PRODUCTS:

PRO DASHBOARD

Silicone-free and with a matt finish, this product makes the dashboard stay clean and shiny much longer thanks to its anti-static agents that prevent dust from sticking on the surface.

FRESH

The innovative air freshener line by ISTOBAL esens® is that perfect final touch after a car wash, refreshing the air with different scents and neutralizing foul odours. A nice clean car to be seen and smelled.

FACILITY AND WATER TREATMENT

For a clean and sustainable facility

A clean, protected and sustainable car wash is your best business card. For that reason, ISTOBAL esens® has a product range specifically designed for the cleaning of both facilities and machinery, as well as a water treatment, recycling and disinfection line.

FEATURED PRODUCTS:

HYDRO PURE BIOGUL

The ideal sanitization solution for recycled water or feed water at the car wash. Maximum disinfection for a worry-free facility.

ANTISCALANT

Its descaling action prevents scale crystals from forming, avoiding damages on osmosis membranes and hot-water generators. Total protection for a longer equipment life.

STANDARDS

Taking care of your vehicle and the planet

All ISTOBAL esens® chemical products are biodegradable. The quality and sustainability of many of them has been certified with different European standards, which means they meet the highest environmental requirements.

NORDIC SWAN ECOLABEL

This accreditation certifies that ISTOBAL esens® chemicals minimize their ecological footprint and have a minimal impact on the environment throughout their life cycle, at the same time ensuring they are effective in wash processes. The international certification of the Nordic countries is one of the most important and demanding worldwide.

VDA

Granted by the German Association of the Automotive Industry, this certification guarantees that ISTOBAL esens® products meet the quality demands of Germany's major car manufacturers and those of their suppliers.

ÖNORM

An Austrian standard, ÖNORM certifies the adequate treatment of water and waste from wash products and guarantees that ISTOBAL esens® chemicals contribute to waste reduction and the protection of the environment.
