

# Fridge Monitoring Wireless & Cloud Based

Now available from TSG Systems is the Fridge Monitoring System. It is Cloud based and wireless which means it can monitor the temperatures across your entire business from anywhere in the world, at any time and in real-time. It can be customised to each user for as many people in your team and it has a 500 metre range booster, for large stores. Temperatures and graphs are available on PC, Tablet, or Smart Phone.

- Reliable and accurate monitoring at all times
- ISO 9001 Certified Manufacturer
- 24 hour monitoring for peace of mind
- Simple plug and play installation
- Mobile, desktop and web for easy access
- Prevent breakdowns before they happen
- Save time on staff and improve record keeping
- Easily accessible history for inspections and audits

Working with  
Guardian Software
