

# Power Up Your Business with Turnkey EV Charging Solutions from TSG Ireland

As the demand for electric vehicle charging grows, TSG Ireland is here to future-proof your forecourt or business with comprehensive turnkey EV charging solutions.

We are proud to partner with Maxol and Circle K, managing the installation of EV chargers across their company-owned sites.

Our expertise ensures your site has the optimal charging infrastructure, delivering a seamless experience for operators and customers.

## Why Choose TSG Ireland?

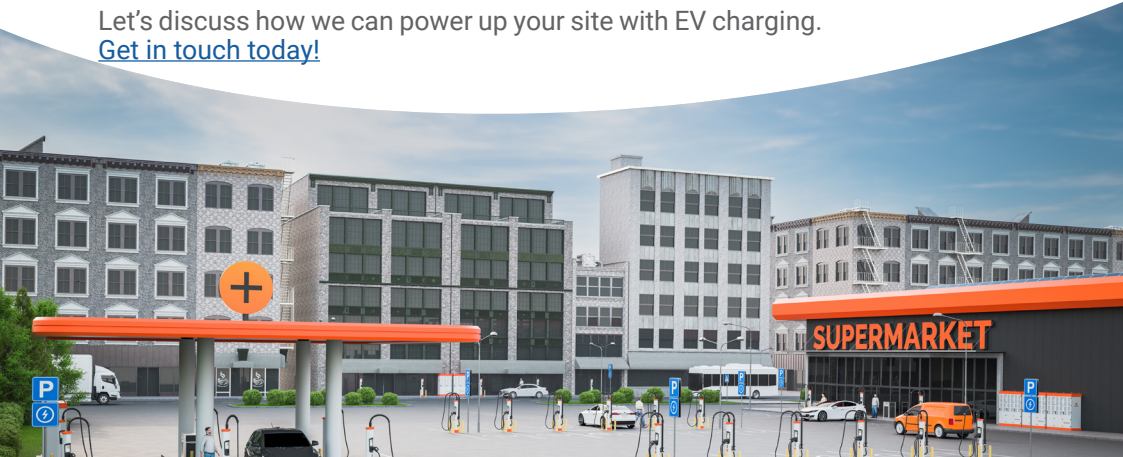

**Complete Turnkey Solutions:** From site survey and design to installation, maintenance, and support, we handle everything.

**AC & DC Charging Options:** Scalable solutions tailored to your specific needs.

**24/7 Service & Maintenance:** Ensuring uptime and reliability for your charging network.

**Flexible Funding Options:** Fully funded solutions are available, making it easier than ever to integrate EV charging into your business.

Let's discuss how we can power up your site with EV charging.

## Introducing ZEV Phase 3

To better assist businesses in integrating EV charging solutions, we are excited to highlight the ZEV Phase 3 scheme. This initiative provides substantial funding opportunities for publicly accessible facilities, making it easier for businesses to adopt and expand their EV charging infrastructure. Here's how we can help you access this funding and provide a full turnkey solution:

**Targets:** Publicly accessible facilities within 3km driving distance of designated scheme roads.

**Eligibility:** Petrol/service stations, car park owners, hotels, supermarkets/retail outlets and other publicly accessible sites.

**Funding:** Covers up to 70% of eligible costs, up to a maximum of €300k, for en-route recharging pools that meet or exceed minimum requirements.

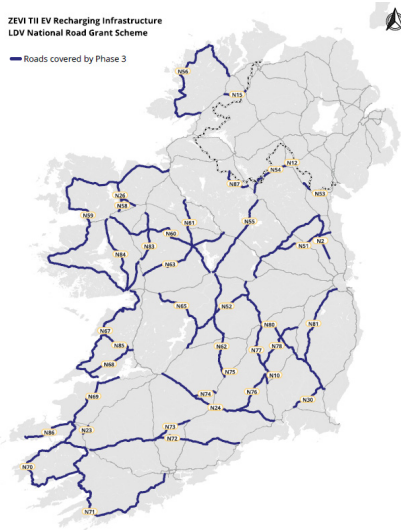

**Application Window:** 28 February 2025 – 16 April 2025.

**Minimum Requirements:** 100kW recharging pool with at least 100kVA grid capacity, strategically located along scheme roads.

**Operational Deadline:** Grant-aided infrastructure must be operational by 31 March 2026.
